APPENDIX I
(REVISION NO. 1)

Item No.	Description	Price
1	The contractor shall furnish and supply to the Government engineering services for the installation, maintenance and servicing of Baird-Atomic Type 7111 Periscopic Sextants at the following rates per man-month:	
	PCS, Domestic	$ 1,473.93
	TDY, Domestic	$ 2,399.63

PCS is defined as assignment to a single location for a period of sixty consecutive days or more.

The contractor shall be paid the applicable rates for contractor personnel provided herein, while such personnel are at work sites, in transit to or from different work sites, and to or from work site and plant.

Transportation which is essential to the accomplishment of required services shall be an allowable charge. Transportation allowances shall be made for Contractor personnel and their baggage and equipment from the Contractor's plant to the site of work, at the site of work while on official business, between sites of work and return to the Contractor's plant. Transportation, where feasible, shall be provided by the Government.

In cases where the Government does not provide such essential transportation and the Contractor furnishes the necessary transportation, this expense shall be an allowable item of reimbursement.

Contractor personnel shall be available for reassignment within the continental United States or overseas upon receipt of reasonable notice by the Contractor from the Contracting Officer.

The rates are based on a normal 40-hour work week (8 hours per day, 5 days per week). The field engineers shall adjust their schedules to maintain a 40-hour work week. The understanding shall be, however, that the field representatives are on call 24 hours per day. In case the work schedule cannot be adjusted to maintain a 40-hour work week, compensatory time off will be given to the field engineers upon their return to the plant.

The FCS man-month rates provide that the Government release field representatives from duty on the following eight holidays: New Year's Washington's Birthday, Memorial Day, Fourth of July, Labor Day, Thanksgiving, Christmas, and one additional holiday to be designated by Baird-Atomic, Inc. The rates also provide that the Government be billed for the holidays, sick leave not to exceed one week and the annual two-week's vacation, since the overhead rate does not include provision for vacations, sickness or holidays.
